Patient Information

Our Misson:

We are dedicated in offering patients direct treatment for the construction, repairing and fitting of removable dental appliances.

At The Denture Clinic, we value your time and strive to provide the best possible care and service to all our patients.

We are not a dental practice, we specialise in making dentures only.

About us

What is a Clinical Dental Technician (CDT) ?

CDT's are registered Dental Care Professionals who are regulated by the General Dental Council. Their position allows them to offer patients direct treatment of the construction, repairing and fitting of removable dental appliances.

Who are the BACDT ?

The British Association of Clinical Dental Technology (BACDT) is the leading professional association that looks to sustain and advance the ethical practice of Clinical Dental Technology. The Denture Clinic is a registered member of the BACDT.

What types of Dentures are available:

There are many different types of dentures which include:

Acrylic, chrome, flexible, full, partial and implant retained

Prices:

1-3 tooth temporary dentures from £475

1-3 tooth dentures from £625

Acrylic dentures from £725

Flexible dentures from £895

Chrome dentures from £1295

Implant retained dentures from £1295

Additions from £135

Relines from £175

Repairs from £70

Nightguards/retainers from £100

Denture Clean and Polish from £25

Your Treatment Plan

If you have ANY natural teeth present, we require a signed referral from your dentist to carry out treatments including additions, relines, new dentures, retainers and nightguards.

Why do we need a treatment plan?

If you still have some of your own natural teeth, Clinical Dental Technicians are required by dental regulations to work in partnership with a dentist.

This means we need a signed treatment plan or prescription from a dentist before we can carry out treatments.

This ensures your remaining teeth, gums, and overall oral health have been properly assessed, and that your denture will be designed safely and effectively for your mouth. Working together in this way helps to protect your oral health and ensures you receive the highest standard of care.

How do you get a treatment plan?

When you agree to have treatment at our clinic, our reception team will send your dentist a treatment plan for them to sign and return. If you haven't been seen recently for a dental checkup, your dentist may contact you to book in for a checkup before they can sign your treatment plan.

If you are not registered with a dentist:

Our team can recommend a local dentist close to you where you can arrange a dental checkup.
(*Seperate charges will apply*)
